# GREEN CREDENTIALS

Windmill Green is among a new breed of forward-thinking offices that serve occupiers' dual need to reduce their carbon footprint and express their deeper social purpose, with an integrated approach to social impact in both design and day-to-day operation together with consideration of health and wellbeing.

The building is sustainable to its core, no other building in the city has been constructed to such exacting environmental standards - it is now the gold standard for refurbishment projects - providing space that can help occupiers foster creativity & innovation.

## WE PUT PEOPLE FIRST

We've put wellbeing at our heart. We champion happiness, health and productivity.

## WE CARE ABOUT INTERACTIONS

Social encounters and conversations mean a lot to us. Our building is designed to bring people together.

## WE'RE A PLAYGROUND NOT A PRISON

Our space feels inspiring, energising and stimulating. Because that's the sort of place great work gets done.

## WE VALUE FREEDOM OF EXPRESSION

We think a workspace should reflect you - the people who work there. It should be flexible enough to adapt to your needs.

## WE THINK NO TWO DAYS SHOULD BE THE SAME

When it comes to a productive workspace, culture is everything. Based in the beating heart of Mcr, we're surrounded by the right stuff.

## WE WANT TO LOOK AFTER THE PLANET

We all have a responsibility to take care of the planet we call home. That's why we've put sustainability at the heart of everything we do.
